 - Food preparation safety such as foodborne illness and allergy concerns.
 - Physical safety, that is students around open flames and hot water.
 - Nutrition
- Mark let Mr. Edwards know that he had gotten his Food Handler's card and had plans in place to keep foods at the appropriate temperatures. They also discussed Mark's medical background and his current career dealing with safety and OSHA compliance. Mark outlined the steps he planned to take to limit the risk of student injuries from open flame or boiling water. Mr. Edwards gave his approval for use of the school grill for the family picnic with the understanding that active cooking of foods in the presence of students would not occur without a discussion between Mark and Mr. Edwards. Mr. Edwards gave his approval for us to continue preparing meals for the students much as we have in past years.
